## SAN FRANCISCO

April 6, 2020

Dear UC Hastings Community,

On March 31, 2020, the San Francisco Department of Public Health issued a revised Public Health Order No. C19-07b (the "Order"), which extends the shelter in place restrictions to May 3, 2020 (see attached), and also provides additional restrictions on activities of individuals and businesses. Per the terms of that Order, each essential business that remains open, must prepare, post, and implement a written protocol to protect customers and employees through designated social distancing requirements. UC Hastings Law has taken extensive precautions to limit the spread of COVID-19 within our campus and had previously implemented virtually all requirements outlined in this latest Order. To ensure compliance with the Order and provide information to our campus community, we are providing this summary of actions taken and compliance required for people accessing campus buildings. Note that we posted our social distancing protocol on the entrances to all campus buildings on Friday, April 3 for review by all individuals reporting to or residing on campus. With the opportunity for additional input, we made some revisions to the protocol, which we reposted at all entrances today – April 6 – and are now sharing here with all employees and students irrespective of whether you access the campus.

Please let us know if you have any questions or need additional information about this protocol, the Public Health Order, or any other measures related to COVID-19. As always, you can refer to the [COVID-19 site on My Hastings](#) for information. We greatly appreciate the spirit and tenacity of the UC Hastings Law community as we continue to work through this challenging time.

Thank you,

Rhiannon Bailard  
Executive Director of Operations
