Dear Justice Traynor:

It was a pleasure to meet you last week at the Appellate Judges Seminar dinner. Enclosed is a copy of the ABA report on the Study Group on Journalists' Shield Legislation. My interest in the subject stems from writing which I have done on the need for researchers' privilege - one article appeared in 1971 Wisconsin Law Review 1085, and a copy of a second article which will appear in Social Problems, is also enclosed. Any comments you would care to make about these materials would, of course, be greatly appreciated.

It should be emphasized that the ABA Study Group Recommendation and Report is currently being circulated for comment within the ABA and has not been passed upon by the House of Delegates. Consequently, it should not be considered as representing the policy of the ABA.

Sincerely yours,

Paul Nejelski

Dear Professor Najelski:

I very much appreciate your sending on the copy of the ABA report on the Study Group on Journalists' Shield Legislation and the copy of your and Professor Pinsterbusch's excellent article, The Prosecutor And The Researcher: Present And Prospective Variations On The Supreme Court's Branzburg Decision.

The Appellate Judges Seminar dinner was most enjoyable, and it was a real pleasure to meet you there.

With all good wishes,

Sincerely yours,

Roger J. Traynor
