**Proposed Amendment to the California State Constitution
to be added to Article I, Section 32**

It is Proposed:

That any resident, having obtained the age of 18 years has the right to grow, own, purchase, and obtain a permit from the State to sell organic marijuana for medical use, without a licensed physician's recommendation or prescription.

The Attorney General of California has prepared the following title and summary of the chief purpose and points of the proposed measure:

MEDICAL MARIJUANA. INITIATIVE CONSTITUTIONAL AMENDMENT.

Establishes a state constitutional right for California residents 18 years of age or older to grow, own, purchase, and sell organic marijuana for medical use, without a doctor's recommendation or prescription. Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local government: **Net reduced costs to state and local governments, possibly reaching the tens of millions of dollars annually related to enforcing certain marijuana-related offenses, handling the related criminal cases in the court system, and incarcerating and supervising certain marijuana offenders. Potential additional state and local tax revenues, primarily from sales taxes, in the low hundreds of millions of dollars annually. Additional state costs of up to several tens of millions of dollars annually to administer permits to sell medical marijuana, which would be offset by any permitting fees authorized by the state.** (15-0041.)
